

SREB-State Data Exchange Definitions of Institutional Categories

Throughout its 35-year history, the SREB-State Data Exchange has recognized the importance of reporting statistical comparisons by institutional category — unlike most other statistical reports, even today. States have very different mixes of types of institutions, and statewide aggregate comparisons should always be interpreted cautiously.

Designed to be used for interstate statistical comparisons, the SREB system for categorizing postsecondary education institutions is based on several factors relevant to determining resource requirements. Institutions are classified based on size (numbers of degrees or full-time-equivalent enrollment), role (types of degrees), breadth of program offerings (number of program areas in which degrees are granted), and comprehensiveness (distribution of degrees across program areas). The SREB classifications do not take into account other factors relevant to determining resource requirements, such as cost differences among programs or externally funded research.

The SREB-State Data Exchange also recognizes that different categorization schemes may be suited to different purposes. Many states use peer-group comparisons for purposes other than interstate statistical comparisons. For example, many funding formulas for postsecondary institutions incorporate peer-group comparisons.

The SREB-State Data Exchange assists states in analyzing alternate peer groups by making the by-college data from the Data Exchange survey available through an online data library. SREB publications show results using the categories listed in this section.

Institutions are assigned to categories using data on program completions from the previous academic year — or, for two-year colleges and technical institutes, using data on estimated full-time-equivalent enrollment for the current academic year. To keep the statistical comparison groups relatively stable over time, an institution changes categories when it meets the criteria for another category for the third consecutive year.

Four-Year Universities and CollegesAppendix A
Item 1

<u>Category</u>	<u>Definition</u>
Four-Year 1	Institutions awarding at least 100 doctoral degrees that are distributed among at least 10 CIP categories (2-digit classification) with no more than 50 percent in any one category.
Four-Year 2	Institutions awarding at least 30 doctoral degrees that are distributed among at least 5 CIP categories (2-digit classification).
Four-Year 3	Institutions awarding at least 100 master's, education specialist, post-master's, or doctoral degrees with master's, education specialist, and post-master's degrees distributed among at least 10 CIP categories (2-digit classification).
Four-Year 4	Institutions awarding at least 30 master's, education specialist, post-master's, or doctoral degrees with master's, education specialist, and post-master's degrees distributed among at least 5 CIP categories (2-digit classification).
Four-Year 5	Institutions awarding at least 30 master's, education specialist, post-master's or doctoral degrees.
Four-Year 6	Institutions awarding bachelor's degrees and less than 30 master's, education specialist, post-master's or doctoral degrees.

Two-Year Colleges

<u>Category</u>	<u>Definition</u>
Two-Year with Bachelor's	Institutions awarding primarily associate degrees and offering college transfer courses; some bachelor's degrees may also be awarded.
Two-Year 1	Institutions awarding associate degrees and offering college transfer courses with FTE enrollment of 5,000 or more; some certificates and diplomas may also be awarded.
Two-Year 2	Institutions awarding associate degrees and offering college transfer courses with FTE enrollment of between 2,000 and 4,999; some certificates and diplomas may also be awarded.
Two-Year 3	Institutions awarding associate degrees and offering college transfer courses with FTE enrollment of less than 2,000; some certificates and diplomas may also be awarded.

Technical Institutes or CollegesAppendix A
Item 1

<u>Category</u>	<u>Definition</u>
Technical Institute or College 1	Institutions awarding vocational-technical certificates and diplomas with FTE enrollment of 1,000 or more; some vocational-technical associate degrees may also be awarded.
Technical Institute or College 2	Institutions awarding vocational-technical certificates and diplomas with FTE enrollment less than 1,000; some vocational-technical associate degrees may also be awarded.
Technical Institute or College--size unknown	Institutions awarding vocational-technical certificates and diplomas whose FTE enrollment was not reported; some vocational-technical associate degrees may also be awarded.

Specialized

Specialized	Special purpose institutions that offer specialized degree programs. These may include medical or health science centers and, in some instances, stand-alone law schools, fine arts schools, engineering schools, military academies or other occupational specialty institutions.

Notes: Total full-time-equivalent (FTE) enrollment is the sum of undergraduate credit-hour FTE, undergraduate contact-hour FTE, and graduate credit-hour FTE. Undergraduate credit-hour FTE equals undergraduate credit hours divided by 30. Undergraduate contact-hour FTE equals total contact hours divided by 900. Graduate FTE equals graduate credit hours (including law) divided by 24. Amounts for two-year institutions include state and local appropriations (where applicable). Amounts for four-year institutions include state appropriations only.

Source: Report of the Task Force on Formula Funding for Public Universities and Community Colleges, October, 1999 as amended by the Board of Regents, October 28, 1999. *An adjustment to the Texas weightings is the addition of a factor for developmental education of 1.45 which reflects the higher costs associated with developmental education programs. Any Louisiana program for which the Texas formula does not have a specified value will be assigned a weighting of 1.
