V. Reports & Recommendations

D. SPONSORED PROGRAMS

1. Consent Agenda
  - a. Appointment of Endowed Chairholder without National Search: LSU Health Sciences Center – Shreveport
2. FY 2018-19 Board of Regents Support Fund Award Recommendations

## **AGENDA ITEM V.D.1.a.**

### **Appointment of Endowed Chairholder without National Search: LSU Health Sciences Center - Shreveport**

#### **Background Information**

At its January 12, 2015 meeting, the Board unanimously approved the following revision to the Endowed Chairs for Eminent Scholars policy:

Effective immediately, all campuses shall provide documentation to the Commissioner of Higher Education that each Chair vacancy is being filled – whether externally or internally – following a national search. Any request for waiver of this policy shall be made in writing to the Commissioner of Higher Education and reviewed by external consultants. Upon receipt of the consultants' response, the Commissioner will provide a formal recommendation for consideration and approval by the Board of Regents. Board approval of the waiver must be provided prior to appointment of the chairholder. The Board reserves the right to render a campus not in compliance with this policy to be ineligible for new Endowed Chairs funds.

#### **Staff Summary**

The Donald and Kathryn R. Smith Endowed Chair in Spinal Treatment at LSU Health Sciences Center – Shreveport, a \$1 million Chair matched by the Board of Regents Support Fund in FY 2011-12, has been vacant since its establishment. In accordance with current policy, LSUHSC-Shreveport has requested waiver of the Endowed Chairs national search requirement to appoint Dr. Anthony Hunkyun Sin, a highly qualified tenured professor of Neurosurgery, to the Smith Chair. Dr. Sin's qualifications were reviewed and determined to be appropriate to requirements outlined in the Endowed Chairs program policy.

#### **Senior Staff Recommendation**

**The Senior Staff recommends approval of LSUHSC-Shreveport's request to appoint Dr. Anthony Hunkyun Sin, Professor of Neurosurgery, to the Donald and Kathryn R. Smith Endowed Chair in Spinal Treatment without a national search. As stipulated in Board policy, the Letter of Appointment to Dr. Sin must be submitted to the Board within 90 days of this approval.**

**AGENDA ITEM V.D.2.**

**FY 2018-19 Board of Regents Support Fund Award Recommendations**

**SECTION A: INTRODUCTION**

**A.1 Constitutionally Prescribed Program Components**

The Constitution specifies that the Board of Regents Support Fund (BoRSF) may be used to support “any or all” of the following activities:

- a. The carefully defined research efforts at public and private universities in Louisiana;
- b. The endowment of chairs for eminent scholars;
- c. The enhancement of the quality of academic, research or agricultural departments or units within a university; and
- d. The recruitment of superior graduate students.

**A.2 FY 2018-19 Board of Regents Support Fund Plan and Budget**

**a. Projected Budget and Funds Available**

On December 11, 2017, the Board of Regents adopted the FY 2018-19 Plan and Budget for the BoRSF, which was later approved by the Governor and the Legislature. Based on Revenue Estimating Conference (REC) projections, the Plan and Budget allocated \$19,500,000 across Support Fund components as follows:

<b>FY 2018-19 Support Fund Budget As Set Forth in the Board’s Annual Plan and Budget</b>	
Endowment of Chairs for Eminent Scholars	\$ 1,220,000
Research and Development	\$ 5,574,954
Enhancement of the Quality of Departments/Units	\$ 7,845,118
Recruitment of Superior Graduate Students	\$ 4,180,500
Board of Regents Administrative Expenses	\$ 679,428
<b>Total Funds Budgeted</b>	<b>\$19,500,000</b>

**b. Actual Funds Available**

Since approval of the FY 2018-19 BoRSF Plan and Budget in December 2017, the REC has issued several opinions relative to the amount of money projected to be available for higher education’s portion of the Support Fund. The most recent adopted estimate, released in April 2019, was \$21,650,000. This projection is higher than the previous guidance from REC and the Treasury, as well as projections used to derive the approved Plan and Budget; it is uncertain at this point, however, whether this higher level can be attained. Therefore, total BoRSF funds available for expenditure in FY 2018-19 are projected to remain at \$19,500,000. The recommendations below reflect the programmatic distribution of available funds across BoRSF components. Note that recommendations encompass only first-year award amounts; additional monies from FY 2018-19 were committed for multi-year projects approved by the Board in previous fiscal years, as well as federal matching obligations, professional services for proposal review, and administrative costs for the Support Fund.

**SECTION B: ENDOWED CHAIRS FOR EMINENT SCHOLARS COMPONENT**

**B.1 Competitive Endowed Chairs**

Ten (10) proposals were submitted from six (6) campuses and deemed eligible for funding consideration this year under the Competitive subprogram. Seven (7) proposals requested \$400,000 each from the Support Fund to

endow \$1 million chairs; two proposals requested \$800,000 to endow \$2 million chairs; and one (1) proposal requested \$1,200,000 to endow a \$3 million chair. All requests were to establish new chairs; one of the \$800,000 match requests received funding for the first \$400,000 increment in FY 2017-18, and was resubmitted for the second increment needed to complete the match.

**B.2 Restricted Bequest Endowed Chairs**

No requests for matching of restricted bequests were submitted in FY 2018-19.

**B.3 Summary of the Endowed Chairs for Eminent Scholars Program**

The ten (10) Endowed Chairs proposals requested a total of \$5,200,000 in matching funds from the Support Fund. All disciplines were eligible to apply. A team of out-of-state consultants assessed and ranked the proposals using the guidelines and scoring rubric provided in the Board’s RFP and subprogram policy. (See **Appendix A** for the rank-order list of FY 2018-19 Endowed Chairs proposals and **Appendix B** for a summary of all competitive endowment proposals recommended for funding.)

It should be noted that the following stipulation in the Board’s Endowed Chairs policy is relevant to proposals submitted in the Competitive subprogram: “...When requests exceed funds available, the following limitations apply relative to the amount of money that will be awarded per campus under the competitive program: (a) each public campus will be limited to \$1.2 million per fiscal year; and (b) all LAICU campuses combined will be limited to a total of \$1.2 million per fiscal year.”

The \$1,220,000 projected in the FY 2018-19 Plan and Budget to be available in the Endowed Chairs for Eminent Scholars subprogram includes \$20,000 for consultants, with \$1,200,000 remaining for endowment match. This amount will enable funding for proposals ranked 1 through 3 in the Competitive subprogram.

**Senior Staff Recommendation**

**The Senior Staff recommends provision of Support Fund money at levels requested to complete the endowments for proposals ranked 1, 2, and 3 in the Consultants’ Report (i.e., proposals 007EC, 006EC, and 008EC). (See Appendix A.)**

**SECTION C: ENHANCEMENT OF THE QUALITY OF DEPARTMENTS OR UNITS COMPONENT**

**C.1 Recommended New Departmental Enhancement Projects**

The \$7,845,118 figure cited in the FY 2018-19 Plan and Budget for Enhancement included the following distributions:

<b>Prior Commitments</b>	
Departmental Enhancement	\$ 720,000
Federal Matching Grants	\$1,300,000
<b>New Awards</b>	
Federal Matching Grants	\$ 625,000
Endowed Two-Year Workforce Scholarships	\$ 600,000
Endowed First-Generation Undergraduate Scholarships	\$ 320,000
Endowed Professorships	\$2,000,000
Departmental Enhancement, including BoR/SREB	<u>\$2,280,118</u>
<b>TOTAL</b>	<b>\$7,845,118</b>

The eligible disciplines in Departmental Enhancement in FY 2018-19 included Engineering A (Chemical, Civil, Electrical, etc.), Chemistry, Computer & Information Sciences, Business, Education, Earth & Environmental Sciences, Arts, Mathematics, and Targeted Workforce.

In the winter of 2018 and spring of 2019, nine teams of out-of-state subject-area experts reviewed, evaluated and ranked the Departmental Enhancement proposals within similar disciplines. Disciplinary assessments were then forwarded to a final panel of experts with broad academic and administrative experience, for final rating, ranking, and funding recommendations. The final panel considered all aspects of the proposals recommended for funding, but emphasized the overall impact of the investment on academic and research capacities in Louisiana, as well as alignment of proposed activities with the submitting campus's role, scope, mission and strategic priorities.

<b>Departmental Enhancement</b>	<b>Number of Proposals Submitted</b>	<b>First-Year Funds Requested</b>	<b>Number of Proposals Recommended</b>	<b>First-Year Awards Recommended</b>
Comprehensive-Multiyear	23	\$ 5,568,816	3	\$ 590,000
Targeted-One Year	<u>132</u>	<u>\$14,894,722</u>	<u>21</u>	<u>\$ 1,763,068</u>
<b>TOTAL</b>	<b>155</b>	<b>\$20,463,538</b>	<b>24</b>	<b>\$2,353,068</b>

**Senior Staff Recommendations**

The \$2,353,068 available and recommended for expenditure shall be awarded in the rank order, at the funding levels, and with the funding stipulations recommended by consultants:

**Comprehensive-Multiyear: Ranks 1-3**

**Targeted-One Year: Ranks 1-21**

Should the amount of money ultimately available to fund first-year activities in Departmental Enhancement projects be less than the \$2,353,068 disbursed herein, the following principles shall apply: (1) all Support Fund money shall be awarded in rank order, at funding levels and with stipulations recommended by consultants; (2) if the remaining money in the budget for a particular component is insufficient to fully fund the next recommended proposal for that component, the remaining funds shall constitute the total award for that proposal; and (3) should an institution refuse or be denied an award, that money shall be awarded to the next highest ranked unfunded proposal within that component. (See Appendix C.)

**C.2 BoR/Southern Regional Education Board Doctoral Support Initiative to Promote Student and Faculty Diversity**

Five (5) institutions submitted a total of five (5) proposals requesting funds for the support of 22 BoR/SREB doctoral support slots in the FY 2018-19 competitive cycle. (See **Appendix C.**) A total of \$330,000 in first-year funds was requested. The external consultant recommended support for all five (5) proposals, for a total first-year allocation of \$150,000. Funding will begin in FY 2019-20. Annual funding totals for recommended projects are:

FY 2019-20	\$150,000
FY 2020-21	\$150,000
FY 2021-22	\$150,000

### **Senior Staff Recommendation**

**The Senior Staff recommends approval of funding for five (5) proposals, ranked 1-5, submitted in the FY 2018-19 cycle to the BoR/SREB Doctoral Support Initiative for the durations and at the levels recommended. (See Appendix C.)**

**Appendix D** summarizes by campus the Priority I recommendations for new projects under Departmental Enhancement.

#### **C.3 Endowed Professorships**

The BoRSF Endowed Professorships subprogram requires the submitting college or university to raise funds at prescribed levels from external sources, which are matched by Support Fund dollars to establish an endowed professorship valued at a minimum of \$100,000. The subprogram policy guarantees two matching slots to each eligible campus. In November 2016, the Board of Regents approved a change in the match rate from \$40,000 for a \$60,000 non-State contribution, to \$20,000 for an \$80,000 non-State contribution. Campuses were permitted to submit requests at the previous matching level through June 30, 2017, resulting in a large number of slots needing \$40,000 in match, along with new slots at the \$20,000 match rate submitted beginning in FY 2017-18. In addition, a campus with fewer than 15 Endowed Professorships is permitted to continue to submit \$60,000 contributions for \$40,000 match until the campus reaches that threshold.

The FY 2018-19 Support Fund Plan and Budget allocates a total of \$2,000,000 to the Endowed Professorships subprogram. With all requests validated, the Board received by the April 1, 2019 deadline applications for 155 Endowed Professorship \$40,000 slots, 147 of which were submitted by the June 30, 2017 deadline, from nine campuses and 17 Endowed Professorship \$20,000 matching slots from seven campuses, requiring a combined total of \$6,540,000 in BoRSF matching funds. Each eligible submitting campus will receive matching for a maximum of seven \$40,000 Professorship matches (\$280,000), totaling \$2,000,000 (See **Appendix E**). A complete list of Endowed Professorships applications submitted for funding consideration in FY 2018-19 appears in **Appendix F**.

### **Senior Staff Recommendation**

**The Senior Staff recommends approval of \$2,000,000 from the Support Fund for the Endowed Professorships subprogram to match new and prior-year requests at 14 campuses. (See Appendix E.)**

#### **C.3 First-Generation Endowed Undergraduate Scholarships**

The Board of Regents Support Fund First-Generation Endowed Undergraduate Scholarships subprogram requires a submitting four-year college or university to raise at least \$60,000 from external or institutional sources, which is matched by \$40,000 from the Support Fund, thus establishing an endowed scholarship valued at a minimum of \$100,000; two-year campuses must provide \$30,000, to be matched with \$20,000 from the Support Fund to establish an endowed scholarship valued at a minimum of \$50,000. The program was suspended to new applications in July 2017; by the June 30, 2017 deadline eight campuses submitted 30 scholarships, requesting \$1,360,000 in BoRSF matching funds.

The FY 2018-19 Support Fund Plan and Budget allocates a total of \$320,000 to the First-Generation Endowed Undergraduate Scholarships subprogram for the establishment of eight endowed scholarships for first-generation undergraduate students. With all disciplines eligible and all requests validated, the Board has received applications from four campuses for twenty-five (25) \$40,000 scholarship matches; no outstanding match requests were submitted by two-year campuses. A list of applications, in descending rank order as specified by each submitting campus, appears in **Appendix G**.

Each eligible submitting campus will receive matching for a maximum of three \$40,000 scholarship matches, for a program total of \$320,000.

#### **Senior Staff Recommendation**

**The Senior Staff recommends approval of \$320,000 from the Support Fund to match seven (7) applications submitted before the July 1, 2017 program suspension date under the First-Generation Endowed Undergraduate Scholarships subprogram. (See Appendix G.)**

#### **C.4 Endowed Two-Year Student Workforce Scholarships**

The competitive Endowed Two-Year Student Workforce Scholarships subprogram provides scholarship opportunities for two-year campuses to prepare students for the Louisiana workforce in the following ways: (a) train students for immediate entrance into selected, high-demand, four- and five-star jobs, including positions in nursing and allied health; and/or (b) prepare students to become job-ready in STEM fields after completing degrees on four-year campuses. Non-State contributions combined with a BoRSF match will produce permanent endowments. This subprogram replaces the Enhancement Subprogram for Two-Year Institutions.

The FY 2018-19 Support Fund Plan and Budget allocates a total of \$600,000 to the Two-Year Student Workforce Scholarships subprogram, to be awarded on a competitive basis. With all requests validated, however, the Board has received applications for the matching of twenty-one (21) scholarships, requesting BoRSF funding of \$470,000. A list of applications appears in **Appendix H**. It was determined that a competitive review was not needed and all requests should be recommended for funding. (See **Appendix B** for a summary of all competitive endowment proposals recommended for funding.) In accordance with policy, \$130,000 remaining in the subprogram budget was transferred to the Departmental Enhancement subprogram, to provide additional support for highly ranked proposals from two-year campuses.

#### **Senior Staff Recommendation**

**The Senior Staff recommends approval of \$470,000 from the Support Fund to match twenty-one (21) applications submitted in FY 2018-19 under the Endowed Two-Year Workforce Scholarships subprogram. (See Appendix H.)**

### **SECTION D: RESEARCH AND DEVELOPMENT COMPONENT**

#### **D.1 Continuation of Previously Funded Research and Development (R&D) Projects and Other Prior Commitments**

The \$5,574,954 cited in the FY 2018-19 Plan and Budget as being available for Research and Development (R&D) includes amounts for prior commitments to Support Fund R&D awards approved in previous years as well as approximately \$135,000 in consultants' costs for the FY 2018-19 R&D review process.

#### **D.2 Recommended New Research and Development Projects**

The R&D component of the BoRSF includes the Research Competitiveness Subprogram (RCS), the Industrial Ties Research Subprogram (ITRS) with Proof-of-Concept/Prototyping (PoC/P) component, and the Awards to Louisiana Artists and Scholars (ATLAS) subprogram. RCS solicits proposals that strengthen the research foundations and competitiveness of Louisiana colleges and universities and help to promote long-term economic development. ITRS and PoC/P target proposals that support research with significant near-term potential for development and diversification of Louisiana's economic base. ATLAS supports completion of major scholarly

and artistic endeavors from the arts, humanities, and social sciences with potential for broad impact on State, regional, national and/or international levels.

Eligible disciplines in RCS for FY 2018-19 are Biological Sciences, Computer/Information Sciences, Earth & Environmental Sciences, Agricultural Sciences, Engineering A (chemical, civil, electrical, etc.), Mathematics, Physics/Astronomy, and Social Sciences. ITRS with PoC/P invites ideas for applied research projects that promote near-term economic development in the State; accordingly the five high-priority industry sectors – Advanced Materials & Manufacturing, Clean Technology & Energy, Coastal & Water Management, Digital Media & Enterprise Software, and Life Sciences & Bioengineering – are targeted for support, though other disciplines may apply provided the project can demonstrate a significant potential economic benefit to Louisiana. ATLAS accepts proposals in all arts, humanities and social sciences areas.

From November 2018 through March 2019, 44 subject-area reviewers and twelve final panel members across four panels reviewed, evaluated, and ranked research proposals according to the Board’s RFP guidelines and evaluation criteria. The following table summarizes consultants’ recommendations across the four R&D subprograms/components (See **Appendix I**):

<b>R&amp;D Subprogram</b>	<b>Number of Proposals Submitted</b>	<b>First-Year Funds Requested</b>	<b>Number of Proposals Recommended</b>	<b>First-Year Awards Recommended</b>
Research Competitiveness Subprogram	153	\$ 7,778,113	34	\$ 1,502,442
ITRS Industrial Ties	41	\$ 3,218,737	6	\$ 426,717
ITRS Proof-of-Concept/Prototyping	28	\$ 1,114,187	8	\$ 319,887
Awards to LA Artists and Scholars	<u>67</u>	<u>\$ 2,852,831</u>	<u>19</u>	<u>\$ 790,064</u>
<b>TOTAL</b>	<b>289</b>	<b>\$14,963,868</b>	<b>67</b>	<b>\$3,039,110</b>

**Senior Staff Recommendations**

**The Senior Staff recommends approval of disbursement of \$2,352,483 estimated to be available in FY 2018-19 to fund the first year of new RCS, ITRS, PoC/P, and ATLAS projects as follows:**

- 1. Research Competitiveness Subprogram: \$1,250,312**
- 2. Industrial Ties Research Subprogram: \$746,604**
  - A. Industrial Ties: \$426,717**
  - B. Proof-of-Concept/Prototyping Initiative: \$319,887**
- 3. Awards to Louisiana Artists and Scholars: \$355,567**

**Approved R&D proposals shall be funded at the levels and with the stipulations recommended by consultants; Support Fund money shall be awarded to fund at recommended levels the top twenty-eight (28) RCS proposals, six (6) ITRS proposals, eight (8) PoC/P proposals, and nine (9) ATLAS proposals. In addition, the following principles shall apply: (1) should an institution refuse or be denied an award, or should FY 2018-19 money be returned from previously funded R&D contracts, that money shall first be used to provide full funding to rank orders partially supported with remaining funds, then offered to the next-ranked proposal which the consultants recommended for Priority I funding within the respective subprogram (ranks 29-34 in RCS and ranks 10-19 in ATLAS), subject to availability of funds; (2) if the remaining money in the budget for a particular component is insufficient to fully fund the next-ranked recommended proposal for that component, the remaining funds shall constitute the total award for that proposal; and (3) if there are no remaining Priority I proposals in a particular subprogram the money shall be awarded in descending rank order to Priority I proposal(s) in another R&D subprogram in accordance with restrictions applicable to allocation of funds for multi-year projects. Should the amount of money**

**ultimately available to fund first-year activities in all R&D projects be less than the \$2,352,483 disbursed herein, adherence to the following principles shall be uniformly enforced: R&D Priority I proposals shall be funded in rank order at the levels and the durations and with the stipulations recommended by consultants until the funds designated for each component have been exhausted. (See Appendix I.)**

**Appendix J** includes a summary, by campus and R&D subprogram, of new projects recommended for funding.

## **SECTION E: RECRUITMENT OF SUPERIOR GRADUATE STUDENTS COMPONENT**

### **E.1 Endowed Superior Graduate Student Scholarships**

The Endowed Superior Graduate Student Scholarships subprogram matches non-State contributions of at least \$60,000 with \$40,000 from the BoRSF to create endowed scholarships that may be used in support of graduate and first-professional students as well as post-doctoral fellows. Higher levels of non-State contributions, in minimum increments of \$60,000, may be matched with additional \$40,000 contributions from the Support Fund. The initial corpus of the endowment must remain intact, while income above the corpus may be used to benefit the student recipient in the form of scholarships, fellowships, and/or experiential opportunities, including internships, externships, conference travel, and field work.

It should be noted that the following stipulation in the Board's Endowed Superior Graduate Student Scholarships program policy is relevant to proposals submitted in this cycle: "...Louisiana State University and A&M College, due to its distinctive public flagship status, may receive a maximum of 50% of subprogram funds budgeted...; each submitting campus with a five-year average total graduate and first professional student enrollment of 1,000 or more may receive a maximum of 30% of subprogram funds...; and each submitting campus with a five-year average total graduate and first professional student enrollment of less than 1,000 or with post-doctoral fellow positions but no student enrollment may receive a maximum of 20%."

The FY 2018-19 Support Fund Plan and Budget allocates a total of \$685,000 to the Endowed Superior Graduate Student Scholarships subprogram, including \$5,000 for competitive review, with the remaining \$680,000 to be awarded on a competitive basis. With all requests validated, the Board has received applications from ten campuses for the matching of sixty-two (62) scholarships, requesting BoRSF funds of \$5,040,000. A rank-order list of applications appears in **Appendix K**. (See **Appendix B** for a summary of all competitive endowment proposals recommended for funding.)

#### **Senior Staff Recommendation**

**The Senior Staff recommends approval of \$680,000 from the Support Fund to match ten (10) applications, ranked 1-10, submitted in FY 2018-19 under the Endowed Superior Graduate Student Scholarships subprogram. (See Appendix K.)**

## **SECTION F: CONTINGENCY PLAN FOR BUDGETARY SHORTFALL**

#### **Senior Staff Recommendation**

**The Senior Staff recommends approval of the following contingency plan for a budgetary shortfall: should the final FY 2018-19 Support Fund budget not achieve the amount cited herein, any shortfall shall be accommodated through a proportionate reduction in the amounts allocated for proposals in the competitive non-endowment Enhancement and Research and Development program components.**

## **SECTION G: CAMPUS SUCCESS RATES**

**Appendix L** contains a chart that summarizes – by campus and program – the number of proposals submitted to competitive Support Fund components, proposals recommended for funding, and first-year and total funding recommended for all Priority I proposals during the FY 2018-19 BoRSF competitive cycle.

## **APPENDIX A**
